INCOMPLETE

Credits required: 120 Credits applied: 90 Catalog year: 2025-2026

Unmet conditions for this set of requirements: A minimum of 120 credits are required for this degree. However, you may be required to complete more than this minimum depending on such variables as major requirements, a minor, course work transferred from other institutions, and multiple major changes over time. All these factors combine to determine exact graduation requirements. You have 90 of the minimum 120 credits, although you must also fulfill each rule outlined in this advising worksheet.

❗ Technology, Mathematics, & Sciences (11 CREDITS)		Attention All Bachelor of Science Students. Please note the recommended science course for your major. All Neuroscience and Physics majors are recommended to take the Physics sequence. All Chemistry and Biology majors are recommended to take Chem 1211K/1212K sequence. All Geoscience majors are recommended to take Geol 1121/L/1122/L sequence. ALL BIS Data Science & GIS concentrations are recommended to take GEOG 1112/L/1113/3, or ENV5 1401/L/1402/L or GEOL 1121/L/1122/L sequence. If not taken in this area then it must be taken in your program requirements. The sequence completed by Georgia State University courses must be in the same discipline (example: BIOL 2107/L & BIOL 2108/L). The Technology, Science & Mathematics course must be different discipline from lab science sequence.

Catalog year: 2025-2026 GPA 0.00

Students must have enough electives to reach 120 total credits. Although this area may say MET, check the CREDITS REQUIRED at the top of your program to determine if you need additional electives. If you have completed the IMPACTS core, Field of Study, Major, and Minor (if necessary) and you do not have 120 hours, you must take additional electives to satisfy your total hours. Contact your advisor with any questions. All non-academic KH courses cannot be used as electives.
